

ROUND CLAMP
AR-ROUND-C

1. OVERVIEW

ACC tension clamp is used for the dead-ending of 3mm to 6mm aerial round drop cables in FTTH architectures, where spans should not exceed 70m. It's designed with a mandrel shaped body enabling the roll up and self-tightening of the cable. It includes an opening bail to directly secure on pole fittings.

2. DETAILED CONFIGURATIONS

NO.	ITEM	Specifications	Note
1	Model	AR-ROUND-C	
2	Material	PA	
3	Tension (Max)	1100N	
4	Operating tension (Max)	500N	
5	Operating temperature	-25°C-65°C	
6	Cable diameter	Φ3-Φ4	It is recommended to coil no less than 4 turns
		Φ4-Φ6	It is recommended to coil no less than 3 turns
